**san marco**  
SISTEMI VERNICIANTI PER L'EDILIZIA

San Marco Group, is a leading company in the manufacturing and distribution of paints, decoratives and varnishes for the professional building industry. With a history that began eighty years ago, San Marco has succeeded in changing with the times and the market's requirements, evolving into the benchmark company it is on the international scene today. Established in 1937 in Treviso northern Italy, it can now vaunt 11 production and commercial sites in several countries, with a portfolio of some 7 brands.

**ORSOLINI**  
Cultura della Casa, dal 1880

The best of the historic and famous Italian ceramiche in a large company founded at the end of the nineteenth century near Rome as a trade in construction materials. The passion and skills of the trade were transferred from father to son, first to Amedeo and then to Giotto Orsolini. All the knowledge gained over time and the skills acquired for serving many generations of consumers have allowed Amedeo, Rino and Giorgio Orsolini to transform a local business into a solid reality present in Lazio, Umbria and Tuscany. Because at Orsolini, "Made in Italy" does not only mean style, but it represents a productive model combining the creative flair typical of our culture with the work ethics that have always characterised Italian manufacturing tradition.

## BERTI

PAVIMENTI LEGNO

Berti Wooden Floors: the parquet's history that grow. The company, founded by Cesare Berti in Villa del Conte, Italy, in 1910, is today Italy's leading parquet manufacturer. Some things change with time, but some others things never change: the company is still a true family business and it is managed personally by the company owners. The raw materials are chosen by material sourced from forests that are managed correctly from an environmental point of view, to a flooring that upgrades every room and turns your house into a home. Choose Berti and BertiStudio products' quality for a high quality prefinished parquet flooring.

## PAGHERA

*The finest gardens in the world*

Landscapers, architects, leaders of complex restoration and territorial transformation. A history started in 1865, more than 150 years ago, that has always grown strictly in contact with nature. A history imprinted in the genetic code: "pagher", in ancient Brescia dialect means "fir" and in a wider sense - "forest". Five generations of nurserymen that, one after the other, have thoroughly studied the nature capturing its every secret.

# PAN

Through 3 complete collections in the new edition of the catalogues: PAN, SIBILLA and ALTATENSIONE, the company is capable of meeting all lighting technology needs, from interior lighting and home lighting to garden lights, outdoor lighting and proposals for the correct lighting of workplaces as well as safe solutions for drive-over light sources, spotlight systems for showrooms and scenery effects where light is designed to exalt the architecture of buildings.

Our plant is located in Italy, always ensuring superior standards of customer sales & services. In fact, a modern and efficient 5000 square meters warehouse, assures ample availability of products with nearly immediate deliveries and efficient after-sales assistance.

## ITALIAN MATERIALS
